SUSTAINABLE COMMUNITIES

Support sustainable communities that integrate quality housing, transportation, schools, commercial development, energy efficiency, parks and green space, flood protection and cultural assets.

Summary:

- The Citizens of New Orleans desire to build a better quality of life for current and future generations by developing sustainable communities through improvements and further development to neighborhood infrastructure, pollution control, reduction of neighborhood blight, improved parks/ green space, better intra and inter-neighborhood access to services through improved transportability.
- We want to build and improve public facilities in neighborhoods together with schools serving as neighborhood centers.

Result Map is attached, showing what factors influence this result.

Outcome Measures that best indicate that the results are being achieved

- Percentage of population spending greater than 30% of their income on housing
- Reduction in number of blighted properties
- Citizen perception of walkability of neighborhoods

Purchasing Strategies (*The Results Team is seeking budget offers to...*)

1. Build capital projects that are coordinated with school master plan
2. Improve City infrastructure including streets, sidewalks, water and sewer systems
3. Encourage and improve coordination among all City, public, and private partners to create sustainable community development
4. Ensure compliance with all City codes
5. Create shared/integrated GIS services that reflect current and timely data for all relevant City agencies
6. Create a consumer and business friendly environment
7. Promote investment in the local economy including cultural assets
8. Increase the efficiency of infrastructure programs and environmental quality
9. Promote a creative approach to sustainable communities

Budget offers will be evaluated in the context of the Mayor's values with emphasis on:

- Achieving the Result
- Measurable Indicators
- Collaboration
- Customer-focus
- Efficiency and cost effectiveness
- Research or evidence-based best practice
